

THE 16<sup>TH</sup> CONFERENCE OF THE INTERNATIONAL SOCIETY OF INDOOR AIR QUALITY & CLIMATE

Creative & Smart Solutions for Better Built Environments

JULY 20-24, 2020 COEX, SEOUL, KOREA

## Delphine K. Farmer

Department of Chemistry, Colorado State University, United States

She is currently an Associate Professor of the Department of Chemistry at Colorado State University in the United States. She received her Ph.D. in Chemistry her MS in Environmental Science, Policy and Management from the University of California Berkeley in the United States, and her BSc in Chemistry from McGill University in Canada. She was awarded multiple honors and awards, including the Arnold and Mabel Beckman Young Investigator Award and the Herman Frasch Foundation Award. She serves on the editorial boards of Atmospheric Chemistry and Physics and Environmental Science: Processes and Impacts. Her research interests have focused on studies of atmospheric chemistry and instrument development, emphasizing the interactions between forests and air pollution. More recently she has concentrated on chemistry of the indoor environment.
